

A MONTHLY JOURNAL OF CHRISTIAN EVIDENCES

TWENTY-YEAR CUMULATIVE SUBJECT INDEX

Volume I (1981) — Volume 20 (2000)

EDITOR'S NOTE: The first issue of *Reason & Revelation* (volume 1, number 1) was published in January 1981. The journal has been produced, without interruption, each month since. The release of the December 2000 issue (volume 20, number 12) marked the twentieth year of continuous publication of *Reason & Revelation*. Many of the articles that originally appeared in the journal still remain in print in one form or another (e.g., in certain of our books, in our tracts, or on our Web site at www.ApologeticsPress.org). Because the twenty years' worth of articles represent a vast storehouse of research and scholarship on a wide variety of topics related to Christian apologetics and Christian evidences, and because much of the information contained in those articles is either difficult or impossible to obtain elsewhere, we felt that readers of *Reason & Revelation* (and others as well) might benefit from a thorough, comprehensive, twenty-year cumulative index (presented in three formats—by subject, by year, and by author). It is my sincere hope that it will prove to be of value to you, both now and well into the future.

— Bert Thompson, Ph.D., editor, *Reason & Revelation*

[The subject index begins below. Item **before** the colon is the **volume** number; item **after** the colon is the **page** number in that volume. For example, an item listed as "15:50" will be found in volume 15, on page 50. It is an easy matter to determine what year each volume number represents, since volume **one** was published in **1981**, volume **two** was published in **1982**, volume **ten** was published in **1990**, volume **eleven** was published in **1991**, etc. We hope this information will assist you in your use of the index. The article index by year begins on page 21; the article index by author begins on page 27.]
